Lincoln Highway Heritage Byway
Corridor Management Plan Meeting
Mount Vernon/Lisbon

July 16, 2015
Lisbon History Center

Meeting Notes and Community Member Input

How has the Lincoln Highway enhanced your community up until now?

- Lincoln Fest was once held together with Mt Vernon and Lisbon - could they partner more?
- Cross country races held. One guy stopped in at the Lisbon History Center
- Used to be lots of 1 lane bridges. People would need to wait their turn to cross the bridge

What could the Lincoln Highway mean to your community in the future? What ideas do you have?

- Could commission the Cornell staff to do plein air landscaping or have a high school class take it on as a project
- Develop oral histories
- Mt Vernon/Lisbon has a great website and could use it as a model for the country - link Lincoln Highway sites to it.
- Develop strategies to replace volunteers as they age out.
- Takes inordinate amount of time to scan documents, catalogue items. Knowledge is lost. How to mitigate challenges?
- Use self-driving cars on the highway
- Use segues as mode of transportation - perhaps for a tour.
- When a bypass happens to Lisbon/Mt Vernon - how to attract visitors to stop into town? More signage from other roads?
- How to brand nationally?
- Expand merchandising
- Promote small businesses like Sleep Inn - Mt Vernon
- Get Lincoln Highway history into the schools
- Could be the next “first” road to use new material for road construction (like ground up recycled tires)
- Put more recharging stations on Lincoln Highway (one just installed by building with Grant Wood Mural)
